Azhad Batt

New Delhi, India | +91 9582834061 | izhadkhan246@gmail.com | LinkedIn | GitHub | Portfolio

Summary

Full-Stack Engineer with 2+ year of experience in **React**, **Next.js**, and **TypeScript**. Specialises in **AI agent engineering** and **LLM application development** – building production systems with **Anthropic API**, **OpenAI API**, **RAG pipelines**, and **MCP servers**. Ships end-to-end: **Docker**, **CI/CD** via **GitHub Actions**, cloud deployment on **Railway**. Combines AI engineering with **n8n workflow automation** for full AI+automation pipeline delivery.

Experience

Associate Software Engineer April 2025 – june 2026
Thoughts2Binary *Gurugram, India*

- Architected a **monorepo across 3 React/TypeScript applications** with shared component libraries, cutting code duplication by **40%** and cross-app feature delivery time by **2 days per sprint**.
- Built **server-state management** with **TanStack Query** (optimistic updates, background sync), eliminating **3 race condition categories** and reducing redundant API calls by **60%**.
- Delivered **Vitest + Playwright** test suite (unit, integration, E2E across 3 browsers) achieving **85% coverage** and **30% fewer production bug escapes**.
- Enforced **WCAG 2.1 AA** across all components (semantic HTML, ARIA, keyboard nav), increasing user engagement by **25%** with zero critical violations on third-party audit.

Next.js Intern January 2024 – August 2024
Uglandindia.co *New Delhi, India*

- Rebuilt pages as **SSR Next.js** apps with optimised **Core Web Vitals** (LCP <1.8s), driving **35% traffic growth** and **28% improvement in 30-day retention**.
- Built **real-time product filtering** across 5+ dimensions (category, price, rating), reducing average time-to-purchase by **20%**.

Full Stack Freelance Developer October 2023 – January 2024
RobocraftLabs.com *Remote*

- Shipped full **React** application from scratch in 6 weeks, achieving **40% increase in session duration** and **25% reduction in bounce rate** over 60 days post-launch.
- Integrated **Mailchimp** and **WhatsApp Business API**, cutting customer response time from **48hrs to 6hrs** and growing subscriber list by **30%** within 90 days.

Technical Skills

AI / LLM: Anthropic Claude API, OpenAI API, Vercel AI SDK, RAG, pgvector, tool calling, prompt engineering, MCP servers, LLM evals, Helicone, LangChain.js
Frontend: React.js, Next.js (App Router, SSR), TypeScript, TailwindCSS, TanStack Query/Router, shadcn/ui, Three.js, Framer Motion
Backend & DB: Node.js, Express.js, PostgreSQL, MongoDB, Prisma, Redis, REST APIs, WebRTC, Socket.io, Firebase
DevOps & Tools: Docker, GitHub Actions (CI/CD), Railway, Fly.io, Vercel, n8n automation, Git, Figma, Stripe API

Projects

AgentHub – AI Agent Platform | *GitHub*

- Built **full-stack AI agent platform** (Next.js + TypeScript) with **streaming multi-turn chat**, **tool calling** (search, calculator, calendar), and **RAG pipeline** over user PDFs – **sub-800ms** queries via **pgvector** semantic search and **OpenAI embeddings**.
- Developed **MCP server** exposing 6 agent tools; wired **n8n workflows** to agent triggers for zero-code background jobs. Built **50+ LLM eval** test cases + **Helicone** observability, cutting inference cost by **22%** via prompt caching.
- Containerised with **Docker** (multi-stage, **60% smaller image**); deployed via **GitHub Actions** CI/CD to **Railway** with staging/production separation. **Stack:** Vercel AI SDK, Anthropic API, pgvector, PostgreSQL, n8n, Docker, Railway

MentorAI – AI Career Coach | *GitHub* | *Live*

- Full-stack **LLM-powered** career platform (Gemini AI) with personalised resume feedback and mock interviews – **200+ users** in 2 weeks. Automated weekly reports via **Inngest** across 15+ industry verticals.
- Visualised salary trends and skill-gap data with **Recharts** dashboards; integrated **Clerk** auth with role-based access. **Stack:** Next.js, TypeScript, Prisma, PostgreSQL, shadcn/ui, Inngest

FlashMeet – Real-Time Video Chat | *GitHub* | *Live*

- **WebRTC** P2P video platform with **Socket.io** signaling, **sub-2s matchmaking**, STUN/TURN relay (**95%+ connection rate**), and **Stripe** monetization (**99.9% payment success**). **Stack:** Node.js, Redis, PostgreSQL, Railway

3D Product Visualizer | *GitHub* | *Live*

- Interactive **Three.js + React** 3D shirt configurator with real-time texture rendering and **AI-generated design upload** via canvas manipulation – demonstrating WebGL and **Canvas API** proficiency. **Stack:** React, Three.js, TailwindCSS, Framer Motion

Education

Noida Institute of Engineering and Technology 2021 – May 2025
B.Tech in Information Technology *Noida, India*
